

Verónica Martínez

Senior UX / Product Designer | Fintech, B2B and Enterprise Platforms

veru.kami@gmail.com ♦ linkedin.com/in/veromtz ♦ verukami.github.io/vero ♦ Mexico City

+ ABOUT

UX and Product Designer with 10+ years working on fintech, banking, and enterprise products, with hands-on experience across web and mobile. I like starting from the big picture: understanding the system, finding where things break, and then building something that actually holds together. I've worked on banking platforms used in Latin America and the US, helped build design systems from the ground up, and more recently contributed to UI/UX and content decisions for a large-scale consumer mobile app. Throughout my career I've worked closely with BAs, PMs, POs, developers, and leads, and I'm comfortable presenting to clients and stakeholders.

+ EXPERIENCE

Freelance Product / UI-UX Designer | Self-employed

2025 - Present

Remote · Selected clients: Hibrids, Truper, Playful, Multiplica

- ♦ Currently embedded with Hibrids on the product team behind a promotions and rewards mobile app for a global beverage brand, contributing to UI/UX and content decisions across core app flows.
- ♦ Support usability and content structure for a high-traffic, large-scale mobile app, working closely with content, marketing, and engineering teams on promotions and engagement features.
- ♦ Led the full redesign of a Mexican university faculty website, from research and audience mapping to final screens and documentation, with a focus on accessibility for students, faculty, and visitors.
- ♦ Worked on UX proposals for mobile investment apps for Multiplica, identifying opportunities to improve clarity and trust in core user flows.
- ♦ Contributed to the visual design of ATM interfaces, a context where every decision has to work for a very broad and diverse user base.
- ♦ Delivered end-to-end design across short and mid-term projects, adapting process and scope to each product's maturity and constraints.

Senior UX Designer | Backbase

Feb 2024 - Feb 2025

Mexico City

- ♦ Worked on UX strategy for enterprise banking products in two markets: a B2C platform in Peru and a B2B product for a US client, both on Backbase's core platform.
- ♦ Used service blueprints and journey maps to help teams get aligned before jumping into design decisions.
- ♦ Took research findings and turned them into high-fidelity prototypes, keeping patterns consistent across both products even though the audiences were very different.

Product Designer | Concentrix

Nov 2021 - Aug 2023

Remote

- ♦ Led accessibility research for a web and mobile app platform, identifying usability barriers and translating findings into concrete design improvements aligned with WCAG standards.
- ♦ Designed a hospital operations dashboard for doctors and staff, including a complex scheduling and hours-tracking table that had to work across different roles and workflows.
- ♦ Built personas, journey maps, and problem frameworks that guided product direction and roadmap prioritization, across both web and mobile touchpoints.

+ EXPERIENCE, CONTINUED

Product Designer (Mid/Senior) | Globant

Nov 2019 – Nov 2021

Mexico City

- ◆ Worked as UI designer on a Citibanamex project, contributing to wireframes, prototypes, and visual systems for the web and mobile app experiences of one of Mexico's largest banking platforms.
- ◆ Co-created BlueBox, a design system based on Atomic Design that became the standard across 4+ product teams, spanning both web and mobile components. The idea was to build something new team members could pick up and continue without starting from scratch.
- ◆ Supported the pre-sales team by creating visual proposals and presentation decks that helped pitch new clients and projects.
- ◆ Worked as UI designer on an eLearning platform for a US-based client, building the interface and visual components for the product.

Product Designer | Krieger

Jun 2017 – Mar 2019

Mexico City

- ◆ Worked across a wide range of projects from the ground up: branding, UX, UI, and platform documentation for clients in different industries.
- ◆ Designed products including an insurance broker platform, an HR dashboard, a file management and transfer dashboard, and a mobile civic reporting app built for a Mexico City district government to let citizens file reports during the presidential elections.
- ◆ Involved in the full process on most projects, from concept and branding to final UI and documentation, across both web and mobile deliverables.

Previous Experience | Various

2010 – 2017

- ◆ Senior Designer at Terán TBWA
- ◆ Web Designer at Grupo Expansión
- ◆ Digital Designer at La Base (UI assets, marketing campaigns, HTML/CSS)
